

Leadership Announcement – Brian Sampson Appointed CEO

We are pleased to share that Brian Sampson has been appointed Chief Executive Officer of Madison-Kipp Corporation, effective April 8, 2026.

Sampson brings significant leadership experience across industrial manufacturing, multi-site operations, and business performance improvement. Over the course of his career, he has led complex operations through growth, downturns, and periods of significant change, with particular depth in metals manufacturing, performance improvement, and restoring customer confidence through better execution.

Most recently, he served as Senior Director of Domestic Operations at FORTNA, where he helped lead a major operational turnaround across multiple facilities. His work focused on reducing downtime, improving on-time delivery to help rebuild customer confidence, and driving cost improvement through waste reduction and stronger execution discipline. Earlier in his career, he held senior leadership roles with Vallourec, including President of Vallourec Canada and General Manager of its Muskogee steel operation, where he led both manufacturing and commercial organizations serving major oil and gas customers in demanding industrial markets.

He looks forward to engaging with Madison-Kipp's customers, suppliers, and partners in the near future. Madison-Kipp remains committed to delivering the quality, reliability, and partnership you expect from the company.

If you have any questions, please do not hesitate to reach out.

Thank you for your continued partnership,

Madison-Kipp Corporation
