

FOR IMMEDIATE RELEASE

Madison, Wisconsin – May 27, 2026 – Madison-Kipp Corporation experienced a significant fire event at its North Plant facility on Tuesday afternoon, May 26, 2026.

Most importantly, there were no injuries. All employees, contractors, customers, and visitors onsite at the time of the incident were accounted for safely.

The Madison Fire Department responded quickly, secured the scene, and released the facility back to Madison-Kipp. The company is cooperating with appropriate authorities and has begun its internal recovery process.

“Our focus right now is on the well-being of our employees, first responders, neighbors, and the surrounding community,” said Brian Sampson, CEO of Madison-Kipp Corporation. “We are extremely grateful for the rapid and professional response from the Madison Fire Department and all emergency personnel involved.”

Madison-Kipp has activated its internal response procedures and is working with insurance representatives and other partners to assess the facility and develop recovery plans.
